About Spoonastic Baby

Spoonastic Baby is a free game app where you feed a sweet baby with a spoon by tilting your device.

As time proceeds the levels get harder and the little devil is beginning to show some bad manners unheard of for any baby before. Will you become a worldwide top feeder?

Baby attacks

The baby defends itself against the food on the spoon with awesome and funny special attacks:

It can idle or jump around, spit water, eat the spoon, spit fire and attack with laser eyes.

Player counter measures

But you are not helpless. There are also special feeding-techniques available:

You can use the **Food Cannon** to get a great feeding progress. You can also use the **Magic Spoon** which helps you to solve the baby attacks. Or you can activate the **Jack in the Box** to make the baby laugh out load so you can feed it instantly.
